- Lighting for cinematography
- Sontag on photography
- Studio anywhere
- Understanding exposure

## OBJECTIVE

To leverage my expertise in videography and passion for visual storytelling to contribute creativity to dynamic projects seeking a challenging role where my technical proficiency, artistic vision, collaborative skills can enhance the quality and impact of videoproduction

## WORK EXPERIENCE

### CINEMATOGRAPHER

**Nexxus Digital solution (senior cinematographer)** OCT25 - MAR26

- Collaborated with the Creative Lead and Direction Team to conceptualize and execute commercial shoots aligned with brand objectives.
- Coordinated directly with clients for scheduling, briefing, and on-site execution, ensuring seamless production workflow.
- Led shoots independently when required, developing on-spot concepts and directing execution with minimal manpower.
- Supervised lighting setups, guided junior team members with structured pre-shoot checklists, and optimized shoot timelines to maximize content output.
- Managed complete post-production coordination, including data backup, shoot documentation, edit queue management, and quality supervision with editors to ensure cinematic standards and timely EOD delivery.
- Conducted professional product and commercial shoots while mentoring juniors in client communication, lighting, and production management.

### Additional contribution :

- Contributed to product development of Panai Halwa, from executing the raw concept to final market-ready output that increased client revenue.
- Gained cross-functional exposure through Hyve Inn, supporting end-to-end property development, maintenance, and marketing operations.
- Worked with Cleansy, an AI-based commercial cleaning model, assisting in operational understanding and contributing to future business model planning.
